

TechnoJET® PP1904E

Print fluently, province paper and ink with high efficiency and low cost

up to
150
sqm/h
(2pass, 450 x 1200dpi)

Ink on-line processing (filtration and degasification) come true. Print fluently, province paper and Ink with high efficiency and low cost.

Configure a large capacity ink system with low ink alarm (15L/color). Reduce the ink filling times and ensure the ink supply more stable.

Automatic constant tension feeding and take up paper system, paper roll using air shaft roller, can carry 500 meters long paper (thickness $\geq 5g$), decrease the times of operation, greatly improve accuracy and the efficiency.

Low power built-in dryer for roll-to-roll paper take up, drying at the bottom and preposition realize high thermal efficiency, energy conservation, environmental protection, and thorough dry.

FEATURES & SPECIFICATIONS

1• Print head	VSD Pizeo (400 nozzles x 8 lines)
2• No. of printhead	4 nos.
3• Material type (Width)	$\leq 1925mm$
4• Material type (Thickness)	$\leq 2.0mm$
5• Material type (Diameter)	$\leq 300mm$
6• Material weight (Core diameter)	$\leq 60kg$
7• Printing width	Max. 1915mm
8• Size (Printer)	3210x1220x1560mm
9• Net Weight	466kg
10• Voltage	AC220V / 15A / 50/60Hz

MATERIAL TYPE

Width	$\leq 1925mm$
Thickness	$\leq 300mm$
Diameter	$\leq 60kg$

PRODUCTION SPEED

2 pass	150 m ² /h
3 pass	100 m ² /h
4 pass	75 m ² /h

- ✓ PC requirement
- ✓ Ink on-line processing
- ✓ Ink system
- ✓ Take up paper system
- ✓ Heater
